

Expert Insights: Best Practices for Managing Intermediate-Risk and High-Risk NMIBC

Industry Session MedscapeLIVE!

Saturday 10 July
09:30 - 10:30

Location Virtual room 2

Chair A.M. Kamat, Houston (US)

Learning objectives

Upon completion of this activity, participants will:

Have greater competence related to

- Looking at the different considerations made when selecting the most optimal treatment modality for patients with intermediate -risk NMIBC
- Selecting the most optimal treatment strategy for patients with high-risk NMIBC

Demonstrate greater confidence in their ability to

- Apply best practices in the management of intermediate-risk and high-risk NMIBC

09:30 - 09:40

Defining Intermediate-Risk and High-Risk NMIBC: Test Your Knowledge

A.M. Kamat, Houston (US)

09:40 - 09:55

Best Practices and Expert Insights for Intermediate-Risk NMIBC: Clinical Cases

A.M. Kamat, Houston (US)

09:55 - 10:10

Clinical Considerations and Expert Guidance for High-Risk NMIBC: Clinical Scenarios

P. Gontero, Turin (IT)

10:10 - 10:20

Neoadjuvant Intravesical Therapy in NMIBC: Current Evidence

H. Mostafid, Guildford (GB)

10:20 - 10:28

Q&A Session/Challenges in Clinical Practice

Panel

A.M. Kamat, Houston (US)

P. Gontero, Turin (IT)

H. Mostafid, Guildford (GB)

10:28 - 10:30

Concluding Remarks

A.M. Kamat, Houston (US)
